IITG Project Title

2013-Cayuga-Adsitt-Math Course Redesign Project

Have you applied for, or received additional funds? (choose all that apply):

- Consider the project complete, and do not intend to seek additional support

1st Choice:

Instructional Design

Instructional Design

- Course Design/Development/Re-Design
- Interaction
- Personalized Learning
- Student Learning Support

2nd Choice:

Connected Learning Models

3rd Choice:

Instructional Technologies

What recommendations would you make to scale-up or share your project more broadly (within an educational sector, or perhaps SUNY-wide)?

I think that this project could be scaled up on many levels. Currently, we are working with our math faculty to determine how to expand our course offerings that use the re-designed model. Within SUNY, this is a model that can be shared widely and NCAT has provided examples of state systems who have fully implemented course redesign across their campuses.

If you would like to create a community of practice within the SUNY Learning Commons, please describe "members of your community" who would be most interested in your outcomes. Please be specific (e.g., math faculty, instructional designers, student services, registrars, administrators, accreditation or assessment specialists).

I believe math faculty would be the group who would be most interested.

Do you intend to create an ongoing "Community of Practice" within the SUNY Learning Commons to continue work and dialog regarding this project?

Unsure at this time

Overall, how successful was IITG in meeting your project goals? (You may elaborate on your response in the final question if not addressed elsewhere.)

Extremely successful

Do you wish your current abstract to be used?

Yes

File One Upload and Brief Description

This document includes initial assessment of the redesigned math courses (at the end of the document)
