IITG Project Title
2016-UB-Rotundo-Video Pedagogy: Research based best practices for creation and integration of videos into college teaching

Completion Keywords: Completion, Persistence, Transfer, Retention
Our project supports SUNY Excels by providing a rubric and professional development plan that will improve the quality of video produced for instruction. We posit that educating faculty in the production of quality videos combined with a rubric with which to score the videos they produce will improve the quality of their videos.
