ATHENS STATE
UNIVERSITY

Hello,
My name is

HyFlex Framework

Students can change their mode of attendance each week if they wish.

HyFlex Framework

What concerns or challenges do you associate with the HyFlex Model?

Respond here:
PollEv.com/markgale289

A Brief History...

- **Launched as a pilot program by Athens State faculty in Fall 2020**
- **Based on the HyFlex model**
- **Problems:**
 - **Lack of engagement and active learning**
 - **Course attendance dropped**

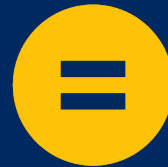

SOLUTION

Hyflex

Active
Learning

ActiveFlex

What Is ActiveFlex ?

ActiveFlex is an enhancement of the HyFlex concept with emphasis placed on equal engagement, active learning and instructor / peer interaction for all modalities.

* The focus is on what to do, not how to do it.

ActiveFlex Structure

Live (in-class) or
Video
(asynchronously)

Immediate
application of
knowledge

- **Contents**
- **Assignments**

Lectures

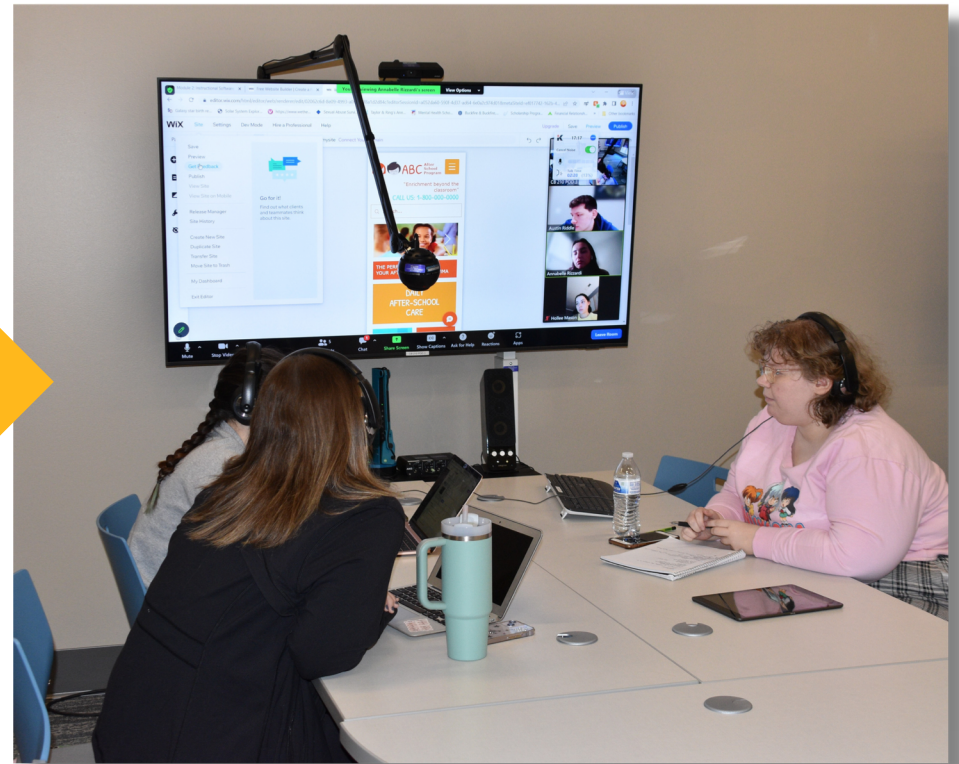

- **In-person and synchronous attendees: Listen to live lecture**
- **Asynchronous: Watch a pre-recorded video (not a recording of a live class lecture. Students submit a lecture quiz to receive credit)**

Reinforcement Activities

- Allows for immediate application of lecture content.
- Synchronous Online - virtual breakout rooms
- In-person - classroom pods
- Asynchronous - on their own

ActiveFlex and the LMS

- **Intention to Attend Live Notice**
 - Drops materials needed based on attendance mode
- **Attendance Quiz**
 - A password-protected "quiz" that proves a student's in-person/synchronous class attendance
- **Lecture Summary**
 - Asynchronous students take a short quiz based solely on the lecture video

ActiveFlex Benefits

What are some potential benefits of the ActiveFlex framework?

Respond here:
