

Customizing and Integrating OER: Discussion Prompts

Share Your Experience Customizing and Integrating OER

With such a wide variety of OER content available and platforms to work with, where do you get started? Even if you have simply edited an OER graphic, or integrated a textbook chapter into your course, you have experience customizing and integrating OER -- experience that can help guide others to do the same.

Please share your own experiences with customizing and integrating openly-licensed content. Be as specific as possible as to the platforms you use(d).

New to Customizing and/or Integrating OER

If you don't have customization and/or integration experience, do you think you have enough information and insights to make a plan for trying one, or both, out?

If no, what questions do you have?

Concerns, Inspirations, and Insights

What concerns, inspirations, and insights have occurred to you about customization and integration of OER that have not been mentioned in this course so far?
