STATE UNIVERSITY OF NEW YORK

I. INTRODUCTION

In March 1948, the Education Law of the State of New York was amended by chapter 695 to create and establish the State University of New York (the “State University”) as a corporate entity. In part, the new section of the law stipulated that “the University shall be responsible for the planning, supervision and administration of facilities and provisions for higher education supported in whole or in part with state moneys, and to perform such other duties as may be entrusted to it by law.” Since its founding in 1948, the State University has offered intellectual and cultural growth to millions of individuals who otherwise would not have received it. Consistent with that tradition of over seventy years, public access to high quality education is a primary objective of the State University.

Today, the State University is a multi-billion dollar enterprise in sound financial condition, with \$26.1 billion in total assets and \$14.1 billion in revenues for the fiscal year ended June 30, 2023. The State University revenue base remains diverse with the largest components being healthcare operations (31%), State appropriations (30%), net student tuition and fees (12%), and grants and contracts (11%). The direct State operating budget appropriations for the State University has remained relatively flat since 2012 with annual increases driven by indirect State support. The State University has adopted policies that have created incentives for campuses to raise enrollment, attract more sponsored research grants, and achieve operational efficiencies. Overall enrollment at the State University remains relatively stable with annual average full-time equivalent students of approximately 181,500 during the 2022-23 fiscal year.

The State University has established four priority pillars to guide our future and is laying the groundwork in each of these areas as a foundational element toward advancing enrollment growth and financial sustainability. The first pillar is Student Success, which includes expanding enrollment and recruitment, scaling proven strategies for retention and completion, expanding basic-needs initiatives, and investing in student mental health support. The Research and Scholarship pillar will align with the Governor’s charge to secure New York’s leadership in AI, biotech, semiconductor packaging, and sustainability and renewable energy. The Diversity, Equity, and Inclusion pillar will employ strategies to continue advancing the State University’s values, ensure campus safety, increase faculty diversity and support students with disabilities. The Economic Development and Upward Mobility pillar will include making targeted investments in workforce development in high-demand sectors, address health care workforce needs, expand internship opportunities, and expand micro credential offerings.

The State University’s commitment to excellence in operational and fiscal stewardship on behalf of the students and taxpayers we serve anchors the State University’s success and enables us to provide extraordinary value. Fiscal sustainability requires both ongoing revenue increases and continuous attention to operational efficiency, along with a commitment to the difficult decisions necessary to ensure financial health.

To further enhance its creditworthiness, the State University prepares this FACTBOOK to provide current financial and statistical data, trends and ratios to assist those who evaluate its financial health. It is intended to provide the information needed to better understand the State University’s operating structure, financial results and available resources.

II. FINANCIAL DATA, TRENDS, STATISTICS AND RATIOS

Revenues 2022-23 Fiscal Year

Total revenue for the 2022-23 fiscal year was \$14.05 billion, an increase of \$625 million over the prior year. The growth in revenues is primarily due to increases in hospital and clinic revenue of \$495 million, State appropriation revenue of \$374 million, investment income of \$158 million, net realized and unrealized gains of \$142 million, and private grants and contracts of \$116 million. These increases were offset by decreases in federal and State nonoperating grants of \$555 million and state and local grants and contracts of \$47 million.

II. FINANCIAL DATA, TRENDS, STATISTICS AND RATIOS

Expenses 2022-23 Fiscal Year

Total expenses for the 2022-23 and 2021-22 fiscal years were \$12.51 billion and \$11.79 billion, respectively, or an increase of \$726 million. This increase was driven primarily by increases in hospital and clinic expenses of \$640 million, instruction expenses of \$93 million and institutional support expenses of \$88 million. These increases were offset by a decrease of \$243 million in scholarship and fellowship expenses.

II. FINANCIAL DATA, TRENDS, STATISTICS AND RATIOS

Operating Programs Cash Balances 2022-23 Fiscal Year (in thousands)

The table below reflects cash basis activity of the operating programs of the State University that are subject to appropriation by the New York State Legislature and are contained in the State University's financial plan (see Glossary of Terms for definitions of operating programs).

Overall operating programs cash balances decreased \$75 million during the fiscal year ended June 30, 2023. This decrease was driven by decreases of \$146 million in hospital operations and hospital income fund reimbursable programs and \$71 million in dormitory operations and dormitory income fund reimbursable programs.

Table 4

(in thousands)	July 1, 2022 Beginning Balance	Receipts and Transfers	Disbursements and Transfers	Net Change for Fiscal Year	June 30, 2023 Ending Balance
Campus core operations	\$ 407,543	2,585,786	2,553,129	32,657	440,200

Total	\$ <u>3,290,284</u>	<u>7,609,059</u>	<u>7,683,740</u>	<u>(74,681)</u>	<u>3,215,603</u>

* During the 1999 through 2001 fiscal years, the State University experienced operating cash-flow deficits at its hospitals. In connection with these cash-flow deficits, the State University borrowed funds with interest from the short-term investment pool (STIP) of the State. The amount outstanding under this borrowing from the State at June 30, 2023 was \$21.4 million.

Note: Includes only those faculty who held academic rank and whose primary function is instruction and/or research.

III. ENROLLMENT PLANNING AND ACADEMIC STATISTICS

Enrollment Statistics

There are two measures of student enrollment: headcount and full-time equivalents expressed as an annual average (AAFTE). Headcount enrollment represents the number of students enrolled (either full or part-time) in credit courses leading to a degree. AAFTE is an annualized measure of enrollment derived from the production of credit hours and used for budgeting and analytical purposes.

Enrollment data is used in tuition revenue planning. Each campus is assigned a tuition revenue target based on the planned enrollment data. If the revenue target is not met, a campus must reduce its operating expenses on a dollar-for-dollar basis or provide revenue from another source to meet the revenue shortfall.

IV. HOSPITAL OPERATIONS

Overview

The State University has three hospitals (each with academic medical centers) under its jurisdiction: the State University hospitals at Brooklyn, Stony Brook, and Upstate. In addition, the State University Board of Trustees approved Stony Brook University Hospital to enter into affiliation agreements with Southampton Hospital Association (SHA) and Eastern Long Island Hospital. The Southampton agreement was approved by New York State on August 1, 2017 and has the State University leasing the Southampton Hospital building and equipment from SHA. The Eastern Long Island agreement was finalized on July 1, 2019.

In September 2012, the State University provided a loan of \$75 million to the SUNY Health Science Center at Brooklyn pursuant to an approved SUNY Board of Trustees resolution. Funds were made available for the loan from State University unrestricted reserves. Repayment of this loan commenced in October 2015. As of June 30, 2023 the outstanding balance was \$32.1 million.

The State University hospitals will continue to be challenged by structural changes in the health care environment, changes in Medicaid and Medicare programs, declines in state support, and local competition. Also, the Medicaid Disproportionate Share (DSH) Program revenue stream, which is designed to help support hospitals that serve large numbers of Medicaid and uninsured patients, is critical to their continued viability as these hospitals serve large numbers of Medicaid and uninsured patients.

Hospital and clinic revenue for the 2023 and 2022 fiscal years was \$4.36 billion and \$3.86 billion, respectively. During the 2023 fiscal year, hospital and clinic revenues increased \$495 million compared to the previous year.

Note: excludes statutory colleges.

During fiscal year 2023, the Research Foundation's total sponsored program disbursements increased \$22 million (2%) compared to the prior year. Federal and federal flow through revenues increased \$71.9 million when compared to prior year, with the largest increases being \$31.5 million from the US Department of Health and Human Services, \$13.1 million from the National Science Foundation, and \$8.8 million from the US Department of Defense. Nonfederal revenues decreased \$49.9 million, with the largest decrease being from New York State (\$90.1 million decrease), offset by increases of \$17.2 million from business and industry and \$10.5 million from SUNY and SUNY-related organizations.

VI. RESIDENCE HALLS OPERATIONS

Five Year Comparative Data (in thousands)

The State University's residence hall operations and rehabilitation programs are financially self-sufficient (i.e., there is no State support provided to pay these costs). Each campus is responsible for meeting its own costs of operations, maintenance and rehabilitation of the residence halls. Overall, the balances in both the operations and equipment and rehabilitation reserves are financially sound. Funding for capital construction and rehabilitation of residence halls is provided from the issuance of bonds by the Dormitory Authority of the State of New York ("DASNY") and from reserve funds accumulated by campuses from residence hall operating revenues.

In March 2013, the State enacted legislation that authorized the State University to assign to DASNY all of the State University's rights, title and interest in dormitory facilities revenue. Under this structure, DASNY is further authorized to issue State University of New York Dormitory Facilities Revenue Bonds payable from and secured by the revenue assigned to it by the State University. The outstanding obligations under these bonds are reported as collateralized borrowing in the State University's financial statements.

Room rents were lower than usual in 2019-20 as a result of refunds provided to students due to the COVID-19 pandemic. Room rents in 2020-21 were also lower than usual at most campuses as a result of significantly decreased occupancy from the lingering effects of the pandemic. The increase in other revenue sources in 2020-21 and 2021-22 was mainly due to federal stimulus funds received for lost revenue in the residence hall program. The decrease in debt service payments in 2020-21 and 2021-22 was the result of restructuring residence hall debt service.

* The campus-related foundations are included in the State University reporting entity and are included in the discretely presented component unit totals on separate pages in the State University's financial statements. Investment information for all years was derived from the individual audited financial statements of the foundations.

Chart 22

VIII. ENDOWMENT AND SIMILAR FUNDS INVESTMENTS

Campus-related Foundations

Each campus has established a campus-related foundation. These foundations are nonprofit organizations that provide each campus with a mechanism for receiving and managing gifts for the purpose of advancing the welfare and development of the campus. These organizations receive the majority of their support from contributions, gifts and grants and in turn support the programs and activities of the campus. Each foundation receives its own independent audit on an annual basis. The financial data included below has been derived from the individual foundation audited financial statements, the majority of which are as of June 30.

Note:

The combined totals of the foundations are included in the reported totals of discretely presented component units on separate pages of the State University's financial statements in accordance with display requirements prescribed by the Financial Accounting Standards Board.

Glossary of Terms

Campus-related Foundations - are separate nonprofit organizations established for the purpose of advancing the welfare and development of each State University campus. The combined totals of the foundations' financial statements are included in the combined totals of the component units separately presented as an aggregate component unit in the State University financial statements.

Colleges of Technology - consist of seven colleges (Alfred, Canton, Cobleskill, Delhi, Farmingdale, Maritime, and Morrisville) that respond to societal change by developing new and innovative programs in public and human services as well as high-tech programs.

Comprehensive Colleges - consist of 13 colleges (Brockport, Buffalo College, Cortland, Empire State, Fredonia, Geneseo, New Paltz, Old Westbury, Oneonta, Oswego, Plattsburgh, Potsdam, and Purchase) that offer academic programs through the masters degree in a wide range of liberal arts and professional disciplines.

Doctoral and Degree Granting Institutions - consists of the university centers, health science centers, statutory colleges and specialized colleges as described below:

University Centers - consist of four centers (Albany, Binghamton, Buffalo, and Stony Brook) that offer research and advanced graduate, professional and doctoral programs.

Health Science Centers – consists of three hospitals at Brooklyn, Upstate, and Stony Brook. Each of the health science centers has a college of medicine, a variety of nursing programs, and a range of other health-related professional programs.

Statutory Colleges - represent colleges (Alfred and Cornell) operated by Alfred and Cornell University, respectively, through a contractual relationship with the State University. The colleges are funded primarily by the State and are included in the State University entity for financial reporting purposes.

Specialized Colleges - Environmental Science and Forestry, SUNY Polytechnic Institute, and Optometry offer unique programs in specialized disciplines.

Dormitory Income Fund Reimbursable (DIFR) - a State University program that operates on a self-supporting basis through income producing user fee activities.

General Income Fund Reimbursable (IFR) - a State University program that operates on a self-supporting basis through income producing activities, such as user fees, gifts, grants and contracts.

Glossary of Terms

Hospital Income Fund Reimbursable (HIFR) - a State University program that operates on a self-supporting basis through hospital and health science center activities, such as affiliation agreements, grants and contracts.

Hospital Operations - a State University program that operates at three health science centers (Brooklyn, Stony Brook and Upstate) on a self-supporting basis through patient care activities.

Residence Halls Operations - a State University program that operates on a self-supporting basis through room rental charges and activities.

Residence Halls Rehabilitation and Repair - a State University program that operates on a self-supporting basis through the transfer of reserve funds to finance major rehabilitation and repair projects.

State Support - represents financial support provided by the State of New York.

State University Tuition Reimbursable Account (SUTRA) - a State University program that operates on a self-supporting basis through credit-bearing activities, such as academic year overflow enrollment, overseas academic programs, summer session, and contract courses.

The Research Foundation for The State University of New York (Research Foundation) - a separate private nonprofit educational corporation that is included in the State University entity for financial reporting purposes. The Research Foundation administers the majority of sponsored program activity for the State University through a contractual relationship.
