

Student Portfolio Submission

Welcome, Carolina Kim

BEFORE proceeding with your portfolio submission, please note the following:

- You will need your instructor's name and course title to complete your portfolio submission.
- If you don't know which assignment to include in your portfolio, ask your instructor.
- Make sure your portfolio assignment files are stored in the hard drive of the device you're using (not in the cloud). You will be uploading the files on the next screen.
- You cannot make changes or access your portfolio after it's been submitted. If you forget to upload a file (or files) you can re-submit your entire portfolio and we will only review the most recent submission.
- You may refer to the **[rubric here](#)**.

The submission period will open on Tuesday, October 13th, 2020 and end on Monday, October 26, 2020.

After October 26, 2020, no more portfolios will be accepted. The system is now locked and not accepting new submissions.

If you need technical support, contact the [IT Service Desk](#) to get immediate technical assistance.

When the submission period opens, click on the blue 'Start Submission' button.
